

Downloading library eBooks and Audiobooks to an iPad, iPod and iPhone

How Borrowing Works:

- eBooks and downloadable audiobooks circulate like other library materials. The library owns a copy of each title
- When that copy is checked out the Washington Anytime Library will say “Request this item”, indicating that you need to wait for the previous patron to finish reading or listening to the item.
- If a copy is available it will say “Add to Cart” and you will be able to add it to your cart, check it out and download the eBook or audiobook.
- You may have 5 downloadable items out at the same time. This includes both eBooks and audiobooks (5 total).
